

(April 6, 2018) Throughout the consideration of the proposed Epiphany Water Solutions facility in Coudersport, PA, JKLM Energy, LLC (JKLM) was identified as a potential customer of the water treatment facility. JKLM will no longer pursue water treatment at the proposed facility. A number of factors impacted this decision.

At JKLM Energy, our mission is to responsibly produce natural gas, protect the environment, workers and the community, and benefit the local economy. We are proud of the substantial investment we have made in Potter County and we are grateful for the support we have received from the vast majority of its residents and government officials.
